LARA REIS

SANTA CASA DA MISERICÓRDIA DE MACAU

Creche LARA REIS

Introduction

Creche da Santa Casa da Misericórdia de Macau (Nursery of Macau Holy House of Mercy), a locally well-known and loved childcare provider established by Santa Casa da Misericórdia de Macau in 2002, has been serving Macau and its people for 20 years. Sharing the same mission, a new project was born - Creche Lara Reis.

Located in the Sai Van Lake area, the environment of this picturesque nursery is one of a kind! Lake, birds, trees, fresh air, nature sounds...plenty of outdoor space (garden/playground) and nature are free for children to explore and learn at their own pace.

Daily activities will be designed by our teachers with teaching experience overseas, including water and sand play, indoor and outdoor artistic play (art/music), storytelling and reading (fiction/non-fiction), family and dressing corner (role play/little theatre), gardening (watering and observation), local-and-international festival celebrations and so much more!

English language will be the medium of instruction. Chinese (Cantonese/Mandarin) and Portuguese are also available for better parent-teacher communication and children's emotional needs.

• Each child is a unique individual, competent learner and responsible citizen. They deserve to feel secure, loved and respected, to be encouraged to express and contribute, and be supported to develop in their own ways.

• Self-care, play and relationship are crucial to children's holistic development. That means creating a safe, hygienic, caring and stimulating environment is our priority. Through social interaction, children are able to mimic and practice different kinds of self-care and learning skills, thus start to understand and respect various ways of expression such as language, art and movement.

• Culture and nature play a major part in character development. In addition to a wide range of cultural and natural learning materials of local character (books of diverse social and scientific topics/characteristic puppets/festive celebrations and decorations/plants and leaves), chances to play outdoors should be secured. Hence, children can better comprehend themselves and the world while connecting to their surroundings.

• Family is the best knower of their child. Mutually and respectful partnerships with parents enable us to work as a team to assist children to help themselves.

Happiness & Care
 Be yourself while being kind to others and the surroundings

01

Self-worth
 Believe in your own value, ability of contribution and possibility of achieving more

YOU GOT THIS

02
